

**How do contractors determine how many gallons are in the system?
By measuring the amount of pipe and the size of pipe and converting it to gallons.**

**Gallons based on a capacity of 1 foot of pipe
Based on actual internal diameter of pipe**

Diameter	Gallons	Diameter	Gallons
3/4"	0.028	3"	0.383
1"	0.045	3 1/2"	0.513
1 1/4"	0.078	4"	0.66
1 1/2"	0.106	5"	1.04
2"	0.174	6"	1.501
2 1/2"	0.248	8"	2.66
