

Wall Mount Nitrogen Generators

for Dry Pipe & Pre-Action Sprinkler Systems.

General Air Products Wall Mount Nitrogen Generators are specifically designed to provide on-site, high purity nitrogen for use in dry and pre-action fire sprinkler systems. Utilizing a simple, low-profile design ready to be connected to a new or existing fire sprinkler system. Each Wall Mount Nitrogen Generator includes an integrated fire protection air compressor specifically designed to fill the sprinkler system to supervisory pressure within 30 minutes per NFPA 13. General Air Products Wall Mount Nitrogen Generators provide a reliable and efficient method of producing a minimum of 98% nitrogen at the point of usage which will inhibit corrosion and improve the life of the sprinkler system.

Included With Every Wall Mount Nitrogen Generator:

Fire Protection
Air Compressor

10 Gallon N2
Storage Tank

Portable N2
Analyzer

30" Stainless Steel
