

UL LISTED SINGLE PHASE 80/100 PSI PRE-WIRED WITH OVERLOAD PROTECTION

Lubricated Tank Mounted Digital Fire Protection Air Compressors for Dry Pipe & Pre-Action Sprinkler Systems.

LT Advance Series

The LT Advance Series Tank Mounted Air Compressors Feature an all-new, UL 508 Listed, General Air Products Digital Pressure Switch. Our digital pressure switch makes it easy to adjust and maintain pressure from low, standard or high pressure, while cutting down on setup time. The Digital Pressure Switch also actuates an Automatic Drain Valve.

PRE-SET PRESSURES FOR EASY INSTALLATION

Easily adjust to any custom setting with the push of a button.

All tank mounted compressors require an Air Maintenance Device to regulate system pressure.

Includes Oil, Vibration Pads, 30" Stainless Steel Flex Hose & Union

- ### Features and Benefits
- UL 1450, Supplement SC Listed
 - CSA C22.2 No.68-Canada
 - UL Listed, Digital Pressure Switch
 - Displays Pressure Readings
 - Displays & Records Run Hours
 - Displays Amperage
 - Displays & Records Cycles
 - ASME Pressure Safety Valve
 - Bubble Tight Air Check Valve
 - All Compressors Are Pre-Tested
 - Lifetime Technical Support
 - Automatic Tank Drain Valve
 - Annual Automated Maintenance Reminders

* System Capacity based on 30min fill and at 70°F system temperature.

Note: A listed Air Maintenance Device must be installed in conjunction with all Tank Mounted air compressors.

Note: All compressors are pre-wired with overload protection.

Note: All information is subject to change without notice. Consult factory for most up-to-date product details

AIR MAINTENANCE DEVICE

Part # AMD-1

The AMD-1 regulates the volume of air being delivered to the sprinkler system by the air compressor.

Per NFPA 13 - An Air Maintenance Device is required on every dry system unless the air compressor has a capacity less than 5.5 ft³/min at 10 PSI.
